b. BUILDING

Located at number 46 on Madrid's Gran Vía, this building by Pedro Muguruza holds the distinction of being one of the tallest buildings in Madrid.

It is a local icon of American functionalist skyscraper architecture and the first building on this street to be constructed using exposed brick.

C. VENUE

On the sixteenth floor is Inedito16, a unique space divided into three highly versatile areas. An exclusive penthouse - the only one in the building - has been converted into an events venue.

The venue covers 138 square metres, divided into different areas, and is distinguished by its large, distinctive windows offering 360-degree views of the capital. Its white walls reflect the natural light, a light that makes it one of the most special penthouses in Madrid.

*Maximum capacity: 50 people at any one time (this figure includes all staff: waiters, agency staff, front-of-house staff, technicians, etc.)

d. ABOUT US

We organize all types of events and corporate actions, adapting the space to the needs and desires of our clients' proposals.

We offer premium advice, including comprehensive support throughout the development and execution of the same.
